Re: Important Forms Changes Notification

Dear Broker,

As you may know, ISO has published a new **Commercial General Liability Form** as well as amended many associated endorsements and created several new CGL endorsements. Many of the changes are significant while others are simply adding wording to clarify intent.

To help educate you on the changes we have published [ISO's explanatory document](#) to our [website](#).

Both New Hampshire Insurance Company and North American Specialty utilize the ISO GL forms and both companies have adopted the revisions. The revisions will be effective for policies written and effective (policy must be both effective and issued after 4/1/13) on or after April 1, 2013 in all jurisdictions except Alaska, Connecticut, Florida, Louisiana, Maryland, and North Carolina where we will adopt these revisions on all business with effective dates (regardless of when the policy is issued) on or after April 1, 2013.

The [Advisory Notice to Policyholders](#) outlines the revisions to the policy forms for the insureds and can be viewed and downloaded from our website.

Additionally, we will be adding an updated Abuse & Molestation exclusion to all General Liability policies beginning in April.

Where state law requires such, we will be sending this advisory notice to your customers along with a notice of conditional renewal for all policies that are affected by these changes.

Any policies issued on a **Marine General Liability** form will not be affected by this change.

If you have any questions relative to these changes, please contact your underwriter.

Sincerely,

Dana Downes  
Recreational Marine Underwriting Division
